## NARROW LITE Variable Sizes (Maximum 1/2" Thick Glass)

FLUSH DOOR LITES

### VARIABLE NARROW LITE DOOR DESIGN:

Designation for a door with a long narrow lite located along the lock edge of the door. The following variations in the Narrow Lite designs are available as standard:

- **N Lite:** door prepared for a 7½" (191mm) wide glass lite (exposed glass size) which varies in height with the door height.
- **LNL Lite:** door prepared for a 7½" (191mm) wide glass lite (exposed glass size) which extends the majority of the door height, and varies in height with the door height.

### GLAZING BEAD SYSTEM:

¼" (6mm) thick glass lites are available as standard with the Steelcraft Dezigner® trim system.

½" (13mm) thick insulated glass lites, are available as an option with the Steelcraft Dezigner trim system for insulated glass.

Insulated glass lites thicker than ½" (13mm) are available as an option with specially designed overlapping steel trim.

### ORDERING NOMENCLATURE:

The door ordering nomenclature described on page D-2, is suffixed with the letter:

- **N** – 7½" (191mm) wide glass lite (which varies in height with the door height).
- **LNL** – 7½" (191mm) wide glass lite (which extends the majority of the door height).

### DOOR SERIES AVAILABLE:

Narrow Lite kits are available for the following door series in all of their standard options and gages: L, B, and T-Series.
