

## MAIL SLOT PREPARATION

Typical Door Elevation

**PURPOSE:**

Optional mail slots allow for the pass through of mail. They are usually located in the bottom of the door and are prepared in the bottom of the door when specified

**APPLICATION:**

The preparation must be placed within the minimum edge dimensions shown above. Customer must indicate the manufacturer, template number and model number of the unit to be installed in order to prepare the proper size opening.

**PRODUCT AVAILABILITY:**

This preparation is available on Steelcraft L and CE Series doors.
