

## PEEP SLOT WITH TRIM

**PURPOSE:**

Certain building segments require functional, inconspicuous observation positions to enforce the safety and security regulations prescribed by the facility operating procedures. This optional viewing unit is factory installed.

**APPLICATION:**

The Peep Slot with trim preparation has a recommended vertical location of 60" (1270mm) and is centered on the door. Customer specified heights that depend on application, are available. The cutout dimension is 13-1/2" (343mm) wide x 1-7/8" (48mm) high. The perimeter of the cutout is reinforced with a 18 gage channel. The U-Channel trim finishes the viewing area dimension to 3/8" (9.5mm) high x 12" (304.8mm) wide.

**PRODUCT AVAILABILITY:**

This preparation is available on Steelcraft L and B Series doors.
